Lesson directions and outline

Explain to youth that livestock evaluation and judging can be a fun and exciting activity. Learning the basics of animal judging starts with learning the parts and what the criteria is for animal selection.

Conducting the activity (DO)

1. Review with youth the handouts, teaching the following sections: Animal Parts, Terms, Selecting your Animal.
2. Challenge youth by using the poster to see how many parts can be identified correctly. Variations of the challenge may include
 - a. A timed event “in 60 seconds or less”
 - b. Teams of youth with the fastest speed and or number correct
 - c. Pin the tail “part” on the poster where one youth is blindfolded and the other is not.

What did we learn? (REFLECT)

- Ask: What are the main criteria for livestock judging?
- Ask: Name five parts and two terms associated with the animal?

Why is that important? (APPLY)

- Ask: Why is it important to know the criteria of something? How does that knowledge impact you when you use that item?
- Ask: Why does understanding each breed’s qualities make you as a producer, more knowledgeable in producing a better product?
- Ask: How does animal conformation impact animal performance? Quality?
