April 12, 2018

Dear Landowner,

I am writing to invite you to attend a public meeting that The Board of County Commissioners will hold in Homedale on May 9, 2018. The purpose of the meeting is to follow up on the first two public meetings held by the Planning & Zoning Commission in November and March. From the input received at those meetings, the Commission recommended zoning amendments to the Board of County Commissioners. This meeting will consider those proposed changes.

**This meeting will not pertain to any lands inside Homedale city limits** but will include discussion of land in the Homedale Area of City Impact. This is the third meeting to get citizen comments, so opportunities for input are coming to a close. Participation is needed from as many people as possible to ensure all voices are heard. Comments received at this meeting will shape the direction the Board takes as they move toward finalizing zoning or rezoning some of the area.

The meeting will be held from 6:30 pm to 7:30 pm in the courtroom of the Homedale City Hall located at 31 W. Wyoming Ave., Homedale, Idaho. There will be current zoning maps available for your review as well proposed zoning and ordinance changes.

Surveys and comment forms will be available at the meeting and are also available at the web site listed below. If you are unable to attend, you are welcome to submit written comments prior to the meeting. Owyhee County continues to experience development pressures on agricultural lands. Your comments will help direct the path that Owyhee County takes regarding land use development. We appreciate your time and effort to help plan for the future of Owyhee County. Information about these meetings will be posted on the County web site found at <http://owyheecounty.net/departments/community-development/>. If you have any questions, please contact Planning & Zoning at 208-495-2095 ext. 2.

Thank you,

Mary Huff, AICP  
Administrator
