SOME OF COMPONENTS THE COMMITTEES WILL COVER ARE FOLLOWING  
(PLEASE CIRCLE YOUR AREAS OF INTEREST)

Land Use  
Natural Resources  
Historic  
Energy  
Community Design

Transportation  
Recreation  
Housing  
Economic Development  
Other \_\_\_\_\_

# Understanding Comprehensive Plans:

## A Guide to Community Planning

### What is a Comprehensive Plan?

- A long-range policy document guiding growth, development, and decision-making in our community.
- Establishes a vision for the future, ensuring sustainable and orderly development.

### Why is it Long-Range?

- Covers a 20–25-year period.
- Provides a stable framework for long-term development, with flexibility for adjustments as community needs change.

### A Working Document

- Periodically updated to reflect new data, trends, and public input.
- Adapts to evolving circumstances and new information.

### The Need for a Comprehensive Plan

- **Guidance:** Helps direct growth and development systematically.
- **Coordination:** Integrates transportation, housing, and land use.
- **Sustainability:** Promotes responsible and economically viable growth.

**Remember to stay engaged and involved throughout the planning process.**

**YOUR VOICE MATTERS!**

### Public Input is Crucial

- **Community Involvement:** Ensures the plan reflects community values, needs, and priorities.
- **Methods:** Surveys, workshops, public meetings, and open houses.
- **Impact:** Builds community consensus and support for the plan.

### Transparency in the Planning Process

- **Open Process:** Activities and decisions are conducted openly.
- **Accessibility:** Documents and meetings are available to the public.
- **Accountability:** Regular updates and feedback maintain trust and engagement.

The plan with maps, charts, and reports shall be based on the following components as they may apply to land use regulations and actions unless the plan specifies reasons why a particular component is unneeded.

- **Land Use**
- **Transportation**
- **Housing**
- **Economic Development**
- **Public Services**
- **Natural Resources**
- **Recreation**
- **Hazard Mitigation**
- **Property Rights:**
- **School Facilities and Transportation**
- **Community Design**
- **Agriculture**
- **Implementation**
- **National Interest Electric Transmission Corridor**
- **Public Airport Facilities**

The plan shall consider previous and existing conditions, trends, compatibility of land uses, desirable goals and objectives, or desirable future situations for each planning component.

**Idaho code 67-6508**
